

Meet the new ALICE2 informative material

Written by Tania Altamirano

A brochure, the first ALICE2 tab and a Screensavers are available for download as part of the visibility tasks of the project.

Latin America Interconnected with Europe, ALICE2, has put online two new publications: the first ALICE2 brochure, which includes a map of the RedCLARA topology with content in Spanish, Portuguese and English; and the first ALICE 2 tab, with information available in Spanish about the goals and current members of the project.

To download the material, click [HERE](#)

The material can be downloaded from ' [Visibility](#) ' section in PDF format and if you want to get the printed version, you can make a request via email in info-alice2@redclara.net, indicating the address to which must be sent, the amount needed and use that will be given.

Besides, the first ALICE2 [Screensavers](#) is on line, available for download in GIF and JPG format in sizes ranging from 800x600 to 1024x768.
