The national network of Brazil, RNP, launched on December 3rd a discussion forum and a blog to increase the interaction between the customers and users of the services offered by RNP. Both can be accessed on the [Services](#) page of the Website of [RNP](#).

The blog is dedicated to the dissemination of news, lectures and other news about the services RNP. Already the forum serves as a space for exchanging ideas between customers and users.

To post information on the forum, you must have an access account, which can be requested by the Services page, the Contact option, or directly by the Service Desk RNP.
